The following is an examiner's statement of reasons for allowance:

The prior art of record, either alone or in consideration, fails to anticipate or render obvious the instantly claimed processes for treating SAPO molecular sieves for the reasons set forth by applicant in the response of July 11, 2005. As can be clearly seen from the specification, there is a relationship in the obtained results of the reactivation/protection process being claimed, the temperatures and the absence of carbon and oxygen during step c of the process. This was clearly not recognized by the prior art of record, particularly since most of the prior art causes mixing of coked and uncoked catalyst to take place in the presence of oxygen and carbon containing materials at temperatures in excess of those clearly shown to be critical in the instant process.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Elizabeth D. Wood whose telephone number is 571-272-1377. The examiner can normally be reached on M-F, 5:30-2:00.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Jerry Lorengo can be reached on 571-272-1233. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
